

DELMARVA HEALTH PAVILION

MILLSBORO, DELAWARE

Tidal Health, formerly known as Peninsula Regional Medical Center (PRMC), selected Gillis Gilkerson as their preferred construction management and development firm for a 50,000 square foot, two-story medical development in Millsboro, Delaware. Delmarva Health Pavilion now stands as part of the Peninsula Crossing Shopping Center, housing Peninsula Orthopedics, Peninsula Regional Family Medicine, Peninsula NRH Regional Rehabilitation, Peninsula Regional Laboratory Services, Peninsula Imaging, and Home Scripts, a full-service community pharmacy.

Throughout the course of the build, Gillis Gilkerson led site selection and layout efforts, and oversaw the creation of efficient floorplans for individual practices. The team provided valuable insight and expertise—having constructed over one million square feet of medical offices within a 125-mile radius of Salisbury, Maryland, Gillis Gilkerson is considered expert in the field. As evidenced by the facility itself, Gillis Gilkerson and Tidal Health worked together to bring to life a vision centered around positive patient experiences.

Millsboro's Delmarva Health Pavilion build was led by Project Manager Mike Truitt and Superintendent Dan Horseman.
